Description

A custom screened pool and spillover spa are the highlights of this 3-bedroom, 2-bath home on a dead-end street in West Lehigh Acres. The pool features a quartz tanning ledge, bubblers, and rock waterfalls. The screened enclosure also includes a separate sitting area and an outdoor wet bar. Mature landscaping provides peace, quiet and privacy for enjoying the unique pool area. Inside, the home offers 1,810 square feet of living area, stainless steel kitchen appliances, and a laundry and mudroom with an additional shower. The attached two-car garage has been sealed, with split a/c added and non-skid flooring installed, and can be used as a 4th bedroom, game room/activity center, or office. The house is exterior-wired with a generator plug. The house is also wired for an EV charger. The detached 10-by-16-foot shed provides extra storage and workspace and includes power. Impact windows and doors were installed in 2022, and the shingle roof and pool screens were replaced in 2023. Schedule your showing on this one-of-a-kind property today! The yard is fenced.
