Description

Space, privacy, and an exceptional Logan Woods location define this newly completed Naples estate. Set on 2.73 beautifully wooded acres with mature pines, this four-bedroom plus den home offers 3,147 square feet under air and 4,520 total square feet, blending modern luxury with the freedom of estate living. With mostly upland acreage, a fully fenced yard, and gated access, the property offers room to make your vision a reality. Imagine a future guest house, detached garage, workshop, recreational space, or expanded outdoor living, subject to applicable approvals. Inside, clean architectural lines and refined finishes create an elegant yet welcoming atmosphere. The open floor plan features generous gathering spaces, tray ceilings with integrated LED lighting, and thoughtful design details. A chef's kitchen anchors the home with an oversized island, custom cabinetry, and premium JennAir appliances, including a professional-grade gas cooktop. Custom closets and pantry storage add everyday convenience. An expansive screened lanai with travertine pavers invites year-round outdoor living. Enjoy the heated pool and spa, or entertain with ease at the fully equipped Bull outdoor kitchen, all in a private, peaceful setting. Built for comfort and peace of mind, the home features impact-rated windows and doors, a tile roof, two Lennox heat-pump HVAC systems, hybrid gas/electric water heating, whole-house reverse osmosis filtration, and a generator with an on-site propane tank. An official FEMA Letter of Map Amendment (LOMA) confirms the home is outside the

Special Flood Hazard Area, potentially eliminating lender-required flood insurance and adding to long-term savings. Additional highlights include a three-car garage with designer doors and epoxy floors, paver driveway, multi-zone irrigation, abundant storage, and distinctive interior accents. Located in desirable Logan Woods within the Vineyards Elementary, Oakridge Middle, and Gulf Coast High School attendance areas, this estate combines a prime Naples setting with rare space and flexibility. A beautiful home is only part of the story. The real luxury is having the space and freedom to make it your own. Seller may consider concessions toward buyer-requested customizations, subject to mutually agreeable terms.
