Description

This 18th floor Nevis Penthouse at Cove Towers offers the privacy and scale of a single-family home, with the addition of sweeping coast views stretching to the Gulf, Wiggins Bay, and Kinsale Golf Club. There are only two residences at this penthouse level! Accessed by a private code elevator and complemented by a rare enclosed two-car garage with an adjacent, sizable AC storage, this end unit residence features an expansive layout. This includes two lanais and two terraces, a generous primary suite with adjoining den, and two en-suite guest rooms in addition to another study with bath alongside. This could easily be converted to another premier guest space with exceptional views. While ready for a modern transformation, the volume, views, natural light and penthouse level positioning provide an exceptional foundation. For buyers seeking space, privacy, security and value, this is a compelling alternative to newer towers at a significantly higher price point. Plus, enjoy the many lifestyle amenities which appeal to those considering Cove Towers as their new home in Naples. (These also include two guest suites available for use by Nevis residents.)
