Floor	**1**
Exterior	**Block**
Interior	**Carpet**

Description

No bridges between your dock and the Gulf. This Oyster Bay home sits on a canal more than 120 feet wide with direct access to Naples Bay and Gordon Pass, and a private Ipe dock with boat lift, water and power. The rear faces south over a screened, heated pool and overflow spa and a covered outdoor dining area. Inside, 3,062 square feet on one level offer 3 bedrooms plus a den and 3.5 baths in a split plan: the primary suite and one guest bedroom open to the pool, while the second guest bedroom and the den each have their own covered sitting area. The lighthouse-inspired design brings vaulted ceilings, custom millwork, painted detailing and natural light throughout. For the boat owner, the 24 by 24 garage has a 12-foot ceiling with height for car lifts, its own mini-split air conditioning and an oversized closet for tackle and gear. Concrete block construction with vinyl siding, a metal roof, and electric and manual storm shutters, with central air conditioning replaced in 2019 and the water heater in 2025. Built in 2002 and kept in its original finishes, it gives the next owner a sound waterfront home to update to their own taste. Minutes to Tin City, the Bayfront and Fifth Avenue South. Floor plan and 3D tour attached.
