Description

One of the Newest Homes recently built on North Captiva! Just completed in 2022, this home still feels pristine and like brand new! Built to the latest wind codes and with upgraded interior fixtures, decor, and finish. This 3 bedroom and 3 bath home is located directly on North Captiva's private airstrip, offering excellent access for pilots as well as scenic views of the Gulf and Bay. The reverse floorplan of this home even offers views from the lower bedroom level as you gaze across the green space of the airstrip to the beaches at either end. The master suite offers a full en suite bath with a walk-in shower, private commode room, double sinks, and a large dressing room/closet. A large laundry space is conveniently located between the bedrooms. Two more exquisitely decorated guest bedrooms share a hallway bath with a deep soaking tub/shower combo. The upper level will impress with its large open-concept kitchen, dining, and living space open to the large covered and screened outdoor porch. The kitchen's central island will become the heart of your home, with dining spots on each side of the island. This kitchen offers a full pantry, quartz countertops, stainless steel appliances, large amounts of storage space, seating, and more. You have views of the bay right from a cozy coffee corner table, while the sparkling waters of the gulf are just outside your sliding glass doors. Enjoy the sunsets from your top-level lookout tower just off the living area. The private elevator rises from your ground-level entrance space and storage garage to the first and second levels of the home for your

convenience and comfort. If you have been looking for a newer, move-in home on North Captiva, this is the one! Don't miss it!
