## Description

London Bay’s collaboration with Stofft Cooney Architects and Exteriors by Koby Kirwin creates a unique estate expressing coastal contemporary architecture offering seamless indoor-outdoor connections throughout. Featuring an elevated interior design with finishes and furnishings, by Romanza Interior Design, the welcoming foyer introduces the home’s open-concept design, where the adjoining great room, dining room and a social room with a wet bar flow to distinct alfresco gathering spaces. The gourmet kitchen features a large island for casual dining and an open butler’s pantry equipped with a sink and additional appliances. The spacious club room accommodates a home office and sitting room with a private patio leading to the home’s private putting green. Spanning an entire wing, the master suite features dual walk-in closets and two luxurious bathrooms connected by a glass-enclosed shower. The well-appointed bedroom enjoys a sunny sitting area and allows for direct access to secluded alfresco destinations. As the focal point of the estate’s outdoor areas, the pool’s custom design features a sun shelf for chaises and a spa seemingly floating on the water’s surface all surrounded by the tropical landscape. An expansive lanai offers covered dining and living spaces with a thoughtfully designed outdoor kitchen, seating area, fireplace and pool bath along with the convenience of motorized screens and shutters. The second floor offers a large loft with a wet bar, additional laundry and four spacious en suite bedrooms, each with direct access to balconies. The

residence also offers the conveniences of a three car-garage, elevator, natural gas, and generator. This prime corner site is conveniently located just steps from the beach and within walking distance to the Third Street shops and restaurants.
