Heating	**Central**
Bathrooms	**6.5**
Floor	**1**
Exterior	**Block**
Interior	**Tile**

Description

Two homes, one gated 2.50 acre estate in the heart of Golden Gate Estates. The main residence lives large with five bedrooms, two primary suites, and a bright split floor plan built for the way Florida really lives, indoors flowing to out. Beyond it sits a rare second home, a 1,211 square foot guest house built in 2019 with three bedrooms, two baths, a full kitchen, laundry, and its own garage. Think multigenerational living, a private in-law retreat, a work-from-home compound, or long-term flexibility few properties can offer. Step outside to a screened, solar heated pool, a cascading water feature, and a fully fenced yard framed by mature fruit trees and landscape lighting. The property runs smart and self-sufficient: owned solar with full battery backup, a whole-home generator, a private well, and a 2024 county tax bill of just $5,500 with no HOA. Best of all, this is a full 2.50 acres of high and dry, 100 percent upland land, no wetlands, with E zoning that welcomes horses, RVs, and boats and room to roam. Every major system is documented and permitted, from the 2019 guest house to the solar array, the re-roof, the well, and the 2025 gated entry. Minutes to shopping, dining, top rated schools, and the white sand beaches that make Naples, Naples. Properties that pair this much usable land, this much flexibility, and this level of self-sufficiency rarely come to market in the Estates.
