Exterior	**Block**
Interior	**Tile**

Description

Built in 2022, this 4 bedroom, 2 bath canal front home in Northwest Cape Coral gives you modern construction, a wide open layout, and water views from the moment you walk in. Step inside to vaulted ceilings and tile throughout, with sightlines straight through the living room to the canal. The kitchen is the heart of the home: an oversized granite island built for gathering, shaker cabinetry, subway tile, stainless appliances, and seeded glass lighting that sets the tone at night. Slide open the triple glass doors and your morning coffee comes with a view. The paver patio and wide backyard stretch to the water, leaving plenty of room to add a pool, an outdoor kitchen, or a screened lanai and make this space your own. The primary suite feels like a retreat with dual sinks and a walk in tile shower. Three additional bedrooms give everyone space, whether you need a guest room, home office, or gym. An interior laundry room keeps chores inside where they belong. Built to last with concrete block construction, hurricane shutters, irrigation, and built in pest control, so you can spend less time on upkeep and more time enjoying Southwest Florida. Just minutes from Pine Island Road shopping and dining.
