Description

Build the home of your dreams on this very quiet secluded 5.7 acre parcel on the Orange River. This property is set back from the road and can be accessed through a deeded easement. Once you reach the property line you will find yourself in an open cleared area where the old home once stood. The old home has been entirely removed except the old concrete pad. The back of the lot bordering the Orange River is a partially cleared wooded area. If you are looking for a quiet, spacious area to build your dream home, this is it!
