Description

Stunning new home, never lived in, with breathtaking wide and long water views, as well as unobstructed views of the preserve beyond the lake, which ensures no future development behind the home. Bright, open, light-filled rooms and water views throughout the house and pool area are mesmerizing. Soaring, 20 foot ceilings as you enter the house, add to the grand and spacious feel of the home. There are custom upgrades througout the home. The free-standing master soaking tub is large enough for two persons, and the shower was redesigned and expanded for dual shower heads. Also, the lanai area was expanded in size, and a full pool bath added on the pool deck/lanai. Impact doors and windows throughout the home give added peace of mind. The first floor owners' suite is very private with dual over-sized walk in closets, and a spa-inspired master bath. There is a custom designed mud room and an over-sized laundry room with cabinetry, storage closet, utility sink, and washer/dryer. On the second floor there is a large family room/loft area that overlooks the pool and lake/preserve views. Three additional bedrooms are on the second floor, that are each en-suite, with walk in closets. The panoramic outdoor screen enclosure offers captivating views of the lake and the preserve, and offers ample space for entertaining and enjoying the pool and outdoors. This is a must see home to appreciate all it has to offer.
