Description

Peace of mind, peace of soul. This is a brand new house built with care and pride, ready to start a new life and to enjoy the privacy of this section in the lovely town of LaBelle. A city easement in the back of the property will allow you to have even more sky, sun and silence, you'll never have a neighbor there. The smart floor plan gives you the opportunity to create a den or an office. Also the 2 car is perfect to use it as another room, with high and continuous ceilings, recessed lights, smooth finished walls, and it's own lateral entrance. The AC unit is in a dedicated closet at floor level, for easy access and maintenance. All the LG appliances are brand new and have been tested as in real life for the new owner's assurance, as well as the septic tank, the well, and all the utility systems. The wooden cabinetry includes the closet interiors in all the three bedrooms, double vanity in the master bathroom, 42" wall kitchen cabinets, and modern 8/0 doors (96 inches), in proportion to the 11'4" tray ceilings. The rectified porcelain tile flooring contributes to the freshness of the ambiance, and brings a lot of value and durability to the most worked surfaces of the home, including the slip resistant floors in the front porch and the lanai. For extra safety, and important savings in the insurance policy, the house is protected by impact windows and doors, hurricane rated tie straps, a solid concrete block carcass, and a tridimensional shingles roof. Even the foundations, although out of sight, have been reinforced with welded wire mesh, to ensure the solidity of the structure over the years. You are

invited to visit this very nice house in this really delicious location. We'd love to hear your feedback and help you to make this deal, for your family and your future.
