Description

Bring your offer of what you can and would pay for such a lovely home and the owner will consider it. Everything you see in this professionally decorated home is included with the purchase of this wonderful condo! You are minutes from the Sanibel causeway beaches and as well to Fort Myers beach, should you desire solitude and natural beaches you may opt for Sanibel and if its entertainment you want, head the other direction to the beaches of Fort Myers. This community is for the discerning buyer as it is professionally upkept, and managed and it shows in the impeccable detail as you drive or walk through to enjoy the sunny day. Oftentimes condos can be dimly lit, not a problem here with a triple slider door to the lanai that gives the illusion that the entire wall slips away for an indoor outdoor room. There is a primary suite with en suite and huge closets. The other bedroom has plenty of gorgeous furniture as well and is as light and sunny as the rest of the home.
