Description

A bold new offering in Coquina Sands. Truly one of the finest new construction homes in the entire city of Naples, A. Vernon Allen Builder and Jon Kukk Architecture & Design have created something unique and rare. As you approach the property, lush landscaping and mature trees give way to a resort style covered entryway. Once inside the home, the 10,049-square-foot-layout feels cozy and inviting despite its scale. Every detail has been carefully assembled with intention. Andersen LiftSlide doors provide zero threshold transitions to the outdoor spaces where the show-stopping 120-foot pool provides stunning visual interest and unparalleled opportunities to entertain. Just beyond the pool, owners will enjoy gathering around the firepit overlooking Banyan Lake and the Four Seasons golf course beyond. Additional features of the home include: a whole home generator, two 1,000 gallon propane tanks, Control4 automation and Lutron Lighting, motorized shades throughout, and 27 foot ceiling in the Family Room. Set on a very quiet treelined street, the Four Seasons and beach are both within walking distance.
