Description

Enjoy waterfront living in this 5-bedroom, 4.5-bath Timber Creek home with 3,357 square feet of living space. A spacious first-floor foyer welcomes you into a separate living area and formal dining room, with light coastal plank tile throughout the first floor. The generous floor plan connects the great room, dining area, and kitchen. The kitchen offers ample storage and counter space, along with white shaker cabinetry, quartz countertops, a large center island, and stainless steel appliances. After a meal in the formal dining room, gather around the built-in coffee bar for a cup of coffee, or start your morning in the breakfast nook overlooking the water and spacious backyard. In the great room, 20-foot ceilings and large sliders create a remarkable sense of space without losing the warmth of home. Settle in by the fireplace, take in the natural light and water views, or step out to the oversized covered, screened lanai. The main floor also includes a primary suite with an ensuite bath, a powder room off the great room, and a laundry room. Upstairs, four additional bedrooms and a loft overlooking the great room provide flexible living space. Impact windows and doors and separate A/C systems for each floor add comfort and peace of mind. Mature palms frame the front yard, and Timber Creek offers 24-hour security, a clubhouse, resort-style pool, fitness center, sauna, arcade, splash pad, and indoor and outdoor dining. Located just minutes from JetBlue Park and RSW airport, this home brings together elegant spaces, room to entertain, and comfortable everyday living.
