This concrete-block home offers 2 bedrooms, 1 bath, tile flooring throughout, and a comfortable layout that makes excellent use of its 997 square feet. The spacious dining area flows naturally into the kitchen, while the home’s manageable size offers an excellent opportunity to update and personalize over time. Notable features include a roof replaced in 2020, central air conditioning, city water and sewer, covered carport parking, and a fully fenced backyard. The generous outdoor space provides room for pets, gardening, a storage shed, or a future entertaining area. Conveniently located near shopping, dining, parks, and everyday necessities, this property could be an excellent fit for a first-time buyer, downsizing homeowner, seasonal resident, or investor. Concrete-block construction, a newer roof, tile flooring, city utilities, and a fenced yard provide a strong foundation for the next owner’s vision.
