Description

One or more photo(s) has been virtually staged, AI generated or rendered. Welcome to your new favorite spot in Highland Woods! This remodeled Cheshire Villa is the perfect blend of modern style and total comfort. Right when you walk in, the open-concept layout hits you with that "I’m home" feeling, featuring gorgeous luxury vinyl floors and crisp crown molding that makes the whole space pop. One of the best parts about this specific home is the layout. While most Cheshire models have a den, this one has been smartly converted into a true third bedroom, giving you that extra dedicated space that’s so hard to find. Plus, with a brand-new A/C system, you’ll be staying cool and worry-free all year long. If you love being outside, just wait until you see the backyard. The lanai has been expanded to create a massive outdoor hangout spot, complete with your own private pool. It’s the ultimate place to relax while looking out over the lush, green preserve—it feels like your own private tropical retreat. The Highland Woods Lifestyle Living here means diving into the Highland Woods lifestyle. It’s a fun, active bundled golf community where there’s always something happening at the clubhouse, the fitness center, or on the tennis and pickleball courts. Everything is at your fingertips since you’re right in the heart of Bonita Springs, you’re just minutes away from the area's best dining and shopping at Coconut Point, and of course, those stunning Gulf beaches. It’s easy, breezy Florida living at its finest.
