Description

One or more photo(s) has been virtually staged, AI generated or rendered. Meticulously maintained and beautifully presented, this sought-after second-floor garden home in Livingston Lakes feels as though no one has ever lived here. Owned by the original owners and used only seasonally until 2023, the residence is bright, pristine and move-in ready. Its thoughtful floor plan balances open living with comfortable private spaces, enhanced by nine-foot ceilings, crown molding, upgraded tile flooring and soft bedroom carpeting. The kitchen offers upgraded cabinetry, generous storage and a coordinated Whirlpool appliance suite. An LG ThinQ washer and dryer installed in 2023, Trane air-conditioning system replaced in December 2025 and Bradford White water heater add confidence. The porcelain-tiled screened lanai overlooks a tranquil pond and graceful water feature, while northern exposure provides soft natural light and comfortable outdoor enjoyment. Hurricane-impact windows and sliding glass doors throughout the community offer added peace of mind. Residents enjoy resort-style amenities and a convenient Naples location near shopping, dining, recreation and Gulf beaches. Offered unfurnished, this pristine residence is ready for full-time or seasonal living. One or more photo(s) has been virtually staged, AI generated or rendered.
