Exterior	**Block**
Interior	**Laminate**

Description

Vaulted ceilings, renovated baths, and peaceful tree-lined views highlight this second-floor home in gated Bridgeway at Parker Lakes. Offering one of the community’s largest floor plans, the home features approximately 1,336 square feet under air, 2 bedrooms, 2 full baths, and a separate family room that can serve as a home office or additional guest space. LVP floors, plantation shutters, and abundant natural light create a bright, inviting interior. The white kitchen features stainless steel appliances, a breakfast bar, and updated drawers and hardware. Both bathrooms have been renovated, with a tiled walk-in shower and dual vanity in the primary suite. Custom closet systems provide convenient storage, while the spacious screened lanai offers a relaxing setting overlooking mature trees. An included carport space and a new metal roof installed in 2024 add to the appeal. An April 2025 FEMA Letter of Map Amendment removed the Bridgeway buildings from the Special Flood Hazard Area. Parker Lakes offers an established, well-maintained setting with a lagoon pool, lap pool, spa, clubhouse, fitness center, tennis, pickleball, and a fishing pier. Enjoy convenient access to HealthPark, Lakes Park, shopping, and dining, with Fort Myers Beach and Sanibel just a short drive away.
