Bathrooms	**2**
Floor	**9**
Exterior	**Block**
Interior	**Tile**

Description

One or more photo(s) has been virtually staged, AI generated or rendered. Beachfront Living on Fort Myers Beach Wake up to Gulf breezes and end the day with front-row sunsets — Creciente delivers the kind of coastal living that Fort Myers Beach is known for. This remodeled residence features rich tile flooring throughout and a great room anchored by oversized sliders that draw the outdoors in. The open-concept kitchen is a showpiece: gleaming granite countertops, custom cabinetry accented with glass-front display doors, stainless steel appliances, and soft indirect lighting tracing the cabinet tops. From here, the sightline stretches past the pool straight out to the Gulf. Step onto the screened, slider-enclosed lanai and take in the view from a private, weather-protected perch. The generously sized master suite offers a spa-like en-suite bath with dual vanities and an expansive walk-in closet, while a well-appointed guest bedroom with its own bath ensures comfort for visitors. Offered partially furnished. Creciente's amenity package rivals a private resort: a sparkling pool with a freshly refreshed deck, newly finished landscaping and parking, his-and-hers saunas, a community clubhouse, a fitness center, and tennis/pickleball courts. And then there's the location. Step outside and pick up the beach's dedicated walking, jogging, and biking trail — a rare amenity that makes an active, barefoot-friendly lifestyle part of everyday life here. Santini Plaza's shops and restaurants are an easy stroll away. Come season, the Tuesday and Thursday Farmers Market brings the island's local

flavor right to your doorstep. Creciente isn't just a condo — it's a beach lifestyle..
