Description

Welcome to this spacious 2-bedroom plus bonus room, 2-bath home situated on an oversized ½-acre lot in Lehigh Acres, offering privacy, flexibility, and plenty of room to make the property your own. The split-bedroom floor plan provides separation between living spaces, while the additional bonus room with a separate entrance offers possibilities for a home office, guest space, or multigenerational living. An enclosed Florida room expands the home's usable space and overlooks the large backyard. Inside, you'll find tile flooring throughout the main living areas, an eat-in kitchen with pantry, two full bathrooms—one with a tub and the other with a walk-in shower—and a utility/mud room for additional functionality. Outside, the 21,780-square-foot lot provides plenty of room to enjoy the peaceful, wooded setting with space to explore adding a future pool, garden, or outdoor entertaining area. No HOA fees, well and septic, and plenty of parking complete this unique property.
