Description

Some people come to Fort Myers Beach for a week. Others eventually decide they want a place of their own and become part of the island's story. The location is what keeps owners and guests coming back year after year. Morning walks along the beach, afternoons on the water, sunset dinners with friends, and the simple pleasure of having your own place to return to whenever the mood strikes. This completely remodeled ground-floor condominium at Estero Island Yacht & Racquet Club offers that opportunity. Beautifully updated with quartz countertops, stainless steel appliances, new cabinetry, updated electrical, and renovated bathrooms, the work has already been done. Simply arrive, unpack, and start enjoying the island lifestyle. Located on the desirable south end of Fort Myers Beach, you're just a short walk from the beach, Santini Plaza, restaurants, shopping, marina access, and everything that makes this area so special. Weekly rentals are permitted, providing flexibility for personal enjoyment, investment potential, or both. Owners and guests enjoy a heated pool, bike storage, community laundry facilities, and access to privately owned boat slips and lifts when available. Every great beach property has a history of creating memories for the people fortunate enough to own it. Now, this residence is ready for its next steward—someone who understands that owning a place on Fort Myers Beach isn't just about real estate. It's about having your own piece of an island that keeps calling people back year after year.
