Description

One of one. This custom Sophie by Florida Lifestyle Homes was built once and will never be replicated — a move-in-ready, lakefront pool home in Lake Timber, the founding neighborhood of Babcock Ranch, America's first solar-powered town. A true split floor plan delivers 4 bedrooms, 3 full baths, and 2,640 sq ft of living space anchored by a great room with soaring cathedral ceilings and a striking real wood beam. A wall of impact glass frames uninterrupted lake views and opens to an expansive 463 sq ft lanai, a sparkling pool, and a summer kitchen already plumbed and ready for your build-out. The kitchen showcases an oversized island, generous cabinetry, and a walk-in pantry flowing to a dedicated dining room. The private owner's retreat offers direct lanai access, dual walk-in closets, and a spa bath with soaking tub, walk-in shower, and dual vanities. A separate guest wing includes a second bedroom with adjacent full bath, an additional bedroom, and a flexible study/4th bedroom — ideal for remote work or visiting guests. Additional highlights: 3-car garage (23'x32'), mudroom, dedicated utility room, and impact glass throughout. Minutes from Founder's Square, lakeside dining, farmers markets, and miles of trails. Homes like this don't come back.
