Description

You can’t just take one look. This 3/2 home is nestled in the far-East portion of Magnolia Landing. An enlarged driveway greets you before your eyes feast upon a beautiful stained glass doorway. From the moment you enter this 1,816’ property, you might think you’re in heaven. Two guest bedrooms with a Jack and Jill bathroom are on the left, except you behold the preserve on the other side of the house beyond the sliding doors. An elegant saltwater pool/lanai shouts to the magnificence of nature. Birds, crows, bobcats can often be heard. Just before the sliding doors is the kitchen/great room combo. Beautiful grayish granite countertops on an island containing the sink. An oven, microwave, and cabinets sit on the adjacent wall. A generous pantry is tucked away in the corner. The spacious master bedroom comfortably fits a king-sized bed, chairs and a dresser. In the huge master bathroom with dual vanities and a large tiled shower is a large closet. Out front it has a two-car garage.
