## Description

This vacant residential parcel offers a rare opportunity to secure land in a growing southwest Florida community where you can plan and build a future home tailored to your vision. Situated on a level lot of approximately 0.32 acres, the property provides a generous footprint for a single-family residence with room for outdoor space, landscaping and potential future additions. It fronts on a paved road within a low-traffic neighborhood that blends rural tranquility with convenient access to State Road 80 and nearby amenities in the LaBelle area, making daily errands and regional travel effortless. With land ready for development, you have the flexibility to design a floor plan that suits your lifestyle and preferences, taking advantage of Florida’s sunny climate and open skies. The location lies in Hendry County where homesites are attracting interest from buyers seeking affordability and long-term growth, and the surrounding community is seeing steady interest from new construction and homebuyers alike. Utilities and hookups are subject to verification with local service providers, offering you the chance to customize infrastructure as you build. Whether you envision a peaceful primary residence or a future investment in a market with potential to appreciate, this property delivers a blank canvas in an accessible setting just a short drive to larger regional hubs and recreational destinations across the Caloosahatchee River corridor and beyond.
