Exterior	**Block**
Interior	**Wood**

Description

Every great community begins with a vision… and The Pomelo Model at The Grove is where that vision comes to life. This is not a “builder-grade” home dressed up with upgrades, every detail here (which you can see first hand) is a standard that most builders charge a premium to achieve. Every inch of this residence has been intentionally designed with elevated finishes, superior construction, and a level of detail you simply have to experience in person. From the moment you step inside, you’re greeted with abundant natural light, soaring 8’ solid core doors, and Level 5 smooth drywall, creating a clean, modern canvas that feels both refined and effortless. The heart of the home is a designer kitchen featuring 3CM natural Quartzite countertops, a Sub-Zero refrigerator, and a full suite of WOLF appliances, all seamlessly connected to the great room and lanai through a built-in Sonos sound system, the perfect setting for entertaining or everyday living. Built for both luxury and resilience, this home includes full impact, insulated hurricane-resistant glass, natural gas throughout, and soundproof insulation on all interior walls, delivering comfort, efficiency, and peace of mind. Step outside to your private oasis with an energy-efficient heated pool, surrounded by lush Zoysia grass and thoughtfully curated outdoor living spaces. The details don’t stop there, because here, they never do! Enjoy a Ring doorbell system, epoxy-coated garage floors with decorative flakes, custom California Closets throughout, soft-close cabinetry, and a private rear-entry garage via a secluded

alleyway. Even the foundation is elevated, literally... with a finished floor height at 9’ elevation, setting a higher standard from the ground up. This is a home where design meets durability, and luxury is the baseline, NOT the upgrade. There are simply too many features to list and that’s exactly the point. Come see it. Experience it. Step into what’s next at The Grove.
