Interior	**Tile**

Description

This two bedroom plus den home has been recently renovated, embracing a fully open living concept. The den features a built-in queen sized Murphy bed with oversized mattress where the only problem is that it is so comfortable, your guests will never want to leave. Large white and gray scratch-free designer marble tiles have been laid throughout the house, extending onto the front and the back pool lanai, providing a bright and airy feeling with very little maintenance. The front entryway is fully enclosed, providing a wonderful area to just sit and watch the world go by with a glass of wine at the end of a round of golf. The back lanai features a built in outdoor kitchen, electric grill and marble countertops. The oversized electric heated pool has been newly resurfaced and updated with white and blue French tiles, all surrounded with outdoor non-slip tiles complementing the similar tiles inside. What sets this house apart from all the others at Countryside is the kitchen. It is the heart of this home. It features a "state of the art" design with quartz countertops and white European style cabinets. This gives the space a "Wow!" modern Florida Resort appearance as soon as anyone enters the front door. The roomy gourmet kitchen will satisfy the needs of any award winning chef and will be where everyone hangs out. The layout makes it easy to entertain and to have friends and family come together to make lasting memories. The oversized waterfall island, along with a farmhouse country sink and an induction stove top before a charcoal gray quartz backsplash encompasses the

entire back wall. The kitchen is equipped with over $20,000 of "Smart" high end appliances only two years old. While all paintings and wall hangings, and some marked antique pieces and personal items will be retained by the Seller, the remaining furnishings are beautifully matched and provide a move in ready home for the discriminating buyer. Productive Meyers Lemon and Key Lime trees further enhance both the eye appeal and the practical addition of twice a year edible crops to enhance your dining pleasure. On top of all this is the beauty and wonderful amenities of Countryside Golf and Country Club with its spectacularly modernized clubhouse and gourmet restaurant, 18 hole golf course with fully furnished and friendly staffed pro shop and course attendants, attended fitness center, tennis, bocci and pickleball courts and a friendly and exciting membership bringing wonderful dynamics to daytime and evening events You can't beat Countryside for a fine country club at reasonable cost for resort living and you can't beat this offered home for your own piece of the total Naples experience.
