Description

Private Covered Boat Slip | Island Club of North Captiva Marina A rare opportunity to own a private, covered boat slip in the Island Club of North Captiva Marina. This premium slip includes both water and electric service and features a heavy-duty 10,000-lb boat lift that can accommodate vessels up to approximately 27 feet. One of the very few covered slips available on North Captiva Island, the protective roof structure is designed and built to withstand high-wind conditions, offering valuable protection for your boat year-round. Private slips of this caliber and location seldom come to market. If you've been waiting for secure, covered dockage with lift, utilities, and a premier marina setting, this may be your slip!
